<https://goo.gl/forms/F9aiHsW6wlV0FI9h2>

Why should you do this?

- With more than 2400 followers and members receiving our newsletters and posts the **impact and legacy** you can have at Oxford is significant
- We host events with more than 300 participants from Oxford
- **Have fun** while working together with smart and nice people that have a deep understanding of AI. Besides the work we do for the society we regularly meet to have fun, go for dinner, or enjoy some frosty beverages
- **Meet** world leaders in the AI world while also connecting with the companies driving the AI revolution
- You will **learn** more about AI than you would expect, not only from an informational perspective but also from a **serious technical perspective**.
- Get **experience** on organizing events and activities for one of the largest communities on campus

Requirements

- **Deep interest** in AI/ML is the key requirement, and technical knowledge about AI/ML is preferred but not required
- Willing to collaborate and contribute to Oxford's AI Society and its community
- Willing to have fun and enjoy the experience of working to make the AI Society better everyday
- Leading such a large and important organization requires a **commitment** of at least 4 hours per week. We do expect a high level of responsibility and accountability from our board leaders.

Positions available

- VP Technology Officer: Technical Expert on AI that work together with our CTO to drive activities that help our members and partners learn about AI (Pythorch group, Seminars in Dubai, etc...)
- VP of Operations: Drive, together with the President, the execution and organization among the board members of the society
- VP Marketing and Communications: Lead the marketing strategy for the society and handle written and verbal communications for the society
- VP Social Media and PR: Lead the social media strategy (Webmaster, Facebook and Twitter account communications)
- VP Partnerships: Lead our critical relationships with important partners such as The Foundry and the different societies we collaborate with
- VP Sponsorships: Spearhead the important efforts of the society to maintain and grow the current sponsorship funds
- VP Social activities: Lead social activities for the board and the AI Society
- VP Treasury and Finance: Lead the financial strategy for the society, while managing the finances of the society
- VP Career Development: Lead the Career Relations of the society with leading AI companies to facilitate their recruiting process within our members
- If you are really good at something that you believe could be relevant for the society you can suggest your own role!
